

The Dart

Fast and straight. Best for distance races down a hallway.

1

Fold in half the long way, open it again

2

Fold both top corners into the middle line

3

Fold the new long edges in again - sharp nose

4

Fold in half, then fold a wing down on each side

Press every fold with your thumbnail. A sloppy fold is the number one reason a plane dives.

The Glider

Slow and floaty. Best for time-in-the-air contests.

1

Fold in half the long way, open it again

2

Fold both top corners into the middle line

3

Fold the nose back down to make a blunt front

4

Fold in half, then fold a wing down on each side

Press every fold with your thumbnail. A sloppy fold is the number one reason a plane dives.

Flight Log

Three throws each. Circle the winner at the bottom.

Plane	Throw 1	Throw 2	Throw 3	Best

Our record so far: _____ steps

Measure in steps, floor tiles or with the paper ruler - just use the same one every time.

Runway Targets

Cut out, tape to the floor and score every landing
