

T. rex

Three long toes with sharp claws.
The whole foot is as long as your
arm.

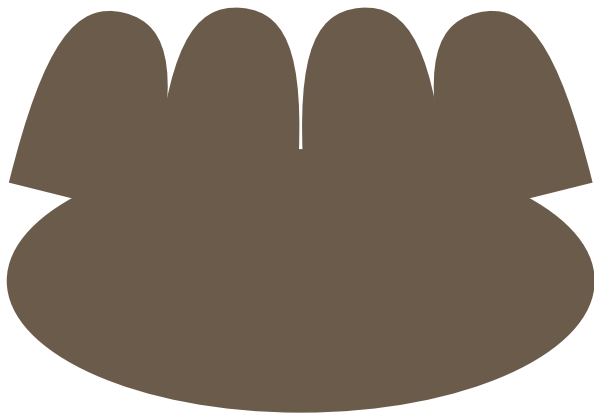

myripplesofjoy.com

Velociraptor

Two slim toes and one big curved
killing claw held up off the
ground.

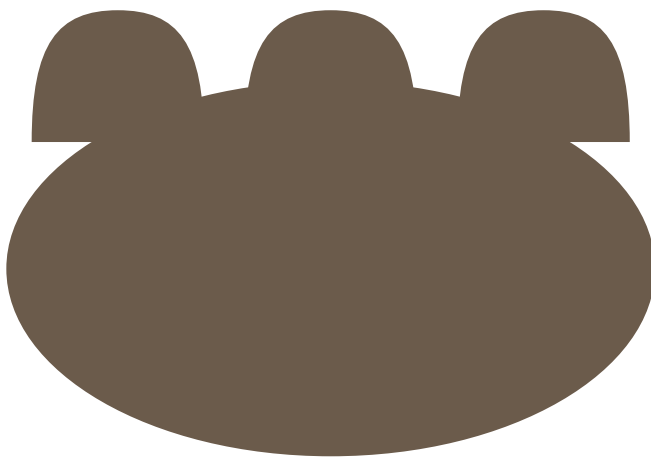

myripplesofjoy.com

Triceratops

A wide, round pad with four short, blunt toes - like a rhino.

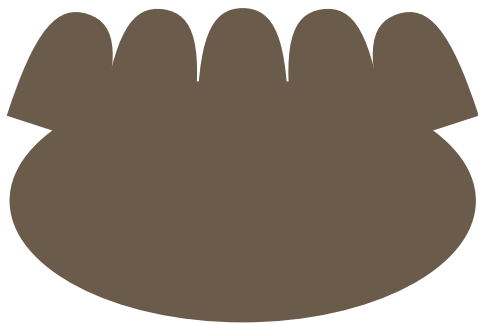

myripplesofjoy.com

Brachiosaurus

A giant circle, almost as big as a dinner plate, with three tiny nubs.

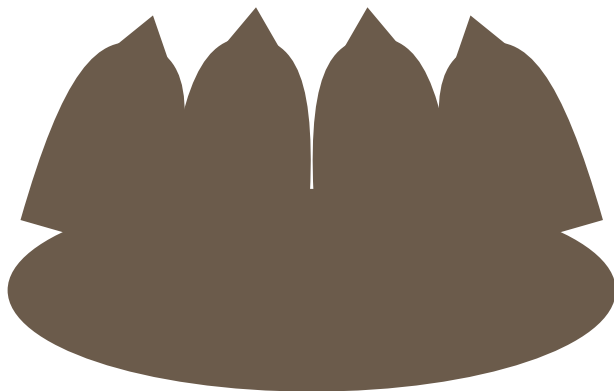

myripplesofjoy.com

Stegosaurus

A rounded foot with five stubby little toes.

myripplesofjoy.com

Ankylosaurus

A broad, flat foot with four wide, spread-out toes.
